

## **Additional Questions and Responses for VA786A-13-R-0042**

1. Some of the panels, in addition to period photos and artwork, also have recent photographs of artifacts. If these types of photos are needed for the panels, will they be supplied by the various sites, or will we need to provide an allowance for artifact photography?

**Response: No, these were just examples of recent interpretive signs. There is no photography anticipated for this project.**

2. In response to questions 7 & 15, among others, regarding image usage and rights, you stated that you "anticipate that the majority of images needed...can be obtained from NCA History Program archives or Federal repositories...." However there may be a need for additional images not available through these resources. Should we provide an allowance for image acquisition that would not be a part of the base fee, but only used on an "as needed" basis?

**Response: No.**

3. Since the CLINs may not be issued at one time, in order to make best use of our time reviewing the Washington archives, would it be possible to have a meeting reviewing all sites and their proposed stories prior to the Washington visit? This would allow us to better select images for potential use once a CLIN is issued.

**Response: CLINs 0001-0004 are part of the base. It is not known if or when CLINs 0005-0010 will be awarded. While teleconferences prior to a Washington visit can be arranged, and discussion would focus on the base award CLINS rather than the optional CLINs.**
